About the D-TECH Forum

Representative event for CEOs and cybersecurity leaders concerned with the strategic approach to digitalization and cybersecurity.

A summit for professionals and experts in digitalization and cybersecurity, at the level of CEO, CISO, CIO, CTO, from ten countries in the region, specialists from the European Parliament and authorities.

D-Tech Forum 2025 aims to engage in the construction of Digital Europe by 2030, based on fair access to technology, sustained innovation and modern digital infrastructure.

D-Tech Forum overview

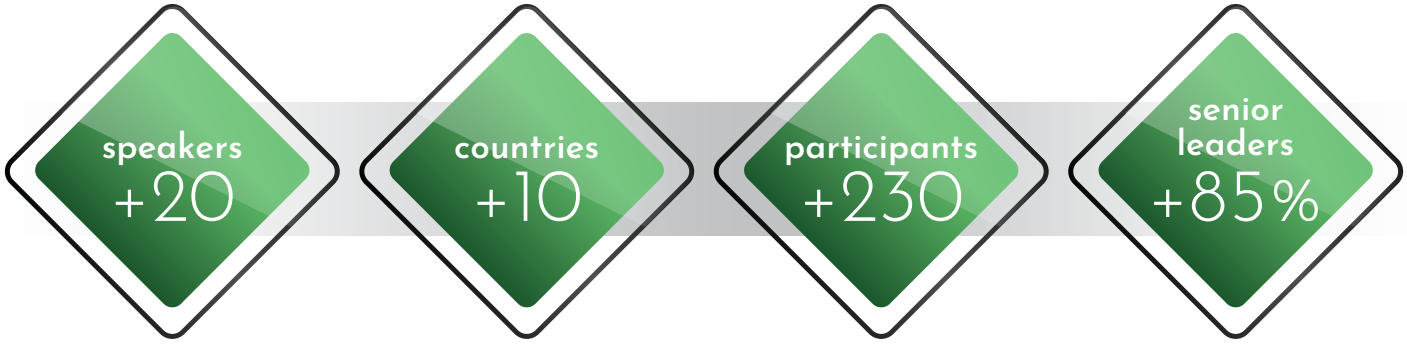
Date: May 30, 2025, in Bucharest.

Location : BNR (National Bank of Romania, iconic building, located in the old center of Bucharest).

Organizer: V+O, a company with nearly 20 years of experience in hosting prestigious business conferences in the IT&C sector.

Speakers and participants: CEO, CISO, CIO, CTO level personalities, as well as cybersecurity professionals and experts from ten countries in the region, specialists from the European Parliament, and decision-makers from other national authorities.

The forum's agenda includes discussions on direct involvement in the construction of Digital Europe by 2030, based on equitable access to technology, sustained innovation and modern digital infrastructure.



We launched in Brussels the debates on how the European Union should respond to global technological challenges, within the framework of the future European Competitiveness Plan. D-Tech Forum 2025 will be a good opportunity to discuss concretely how we can actively involve Romania and Romanian companies in the IT&C field in building Digital Europe by 2030"

- Victor Negrescu, Vice-President of the European Parliament.

Conclusions of the day

Proposed topics

9:30-10:30 SECTION I

"Future digital Romania between freedoms and constraints"

- Building the Digital society: legal frame, technology progress, services bundles
- How to provide democratic access to Digital Society and Services
- AI applications in automation of Digital Services
- Dilemma: securing privacy versus antiterrorism fight (European good practices, wish-lists, regulation and skills required)
- Enforcing Cybersecurity Regulations and good practices, European and local Leadership
- Blockchain Security

10:30-11:30 SECTION II

Medicine as an interconnected service

- Digitalization of the medical system within the framework of the national strategy
- Artificial intelligence in medicine – role and use. Limitations
- Integrated patient management systems. Interoperability between hospitals/specialties
- 2025 Trends
- Generative AI and precision medicine

12:00-13:00 SECTION III

"Environment for Accessible Finances"

- Making money move: denser ATM grid, or pushing e-payments in remote areas
- Interdisciplinary development: what banks need to provide universal access to e-payments
- Banking for people: human-manned branches, AI-based hotspots, smart-ATMs, or Online / Mobile Banking
- 2030 services: what customers will need, and they don't know it yet

14:00-16:00 - SECTION IV

"Telecommunications beyond mobility"

- Revenue generating business models of the future
- Ubiquitous mobility – services and payments
- Applications for 5G/6G Networks and Technology
- Infrastructure 2.3: mastering the local loop (land-mobile networks)
- Mobile Device Security and IoT Protection
