

## **Mr. Cătălin Țenită**

### **Digital Entrepreneur, Founder of Treeworks, Zelist Monitor, and Geeks for Democracy**

Cătălin Țenită is a well-known digital entrepreneur in Romania, recognized for his innovative contributions to information technology and digital transformation. As the founder of Treeworks, Zelist Monitor, and Geeks for Democracy, he has created and developed solutions that promote transparency, democracy, and innovation in the digital space.

Cătălin Țenită also served as a Member of the Romanian Parliament, where he supported legislative initiatives focused on digitalization, transparency, and civic participation. His involvement in politics was driven by a desire to help shape a legislative environment that fosters technological innovation and safeguards citizens' rights in the digital realm.

As a graduate of the University of Bucharest, School of Law, Cătălin began his career in online marketing and data analysis, gaining valuable experience in the field. His successful company, Treeworks, provides customized solutions for business process automation and workflow optimization, aiming to support companies in adopting digital technologies. He is an alumnus of the **IVLP – International Visitor Leadership Program** of the U.S. Department of State: *"Current U.S. Social, Political, and Economic Issues for Young European Leaders II"*, 2018.
